ABOUT THE BOOK:

When the Cassidy-Shaws autonomous minivan collides with an oncoming car, seventeen-year-old Charlie is in the drivers seat, with his father, Noah, riding shotgun. In the back seat, tweens Alice and Izzy are on their phones, while their mother, Lorelei, a world leader in the field of artificial intelligence, is absorbed in her work. Yet each family member harbors a secret that implicates them in the accident. --Publisher's website
